TEA STEGNE IGNJATOVIČ

Tea Stegne Ignjatovič graduated from the Faculty of Medicine, University of Ljubljana, Slovenia in 2002. She has been working as a general practitioner since 2004, initially as a family medicine resident, and since 2011 as a family medicine specialist. From 2017 to 2025, she also worked as the Medical Director of the Ljubljana Health Centre, which is the largest primary healthcare institution in Slovenia with 1,500 employees.

Since 2016, she has been a member of the National Advisory Board for Vaccination, which acts as an advisory body to the National Institute of Public Health.

In 2021 and 2022, she was a member of the Health Council at the Ministry of Health, which is the highest professional coordination and advisory body that shapes the content of health programs from the perspective of their feasibility, balanced development of all professions, and the principle of equal accessibility.

Since 2024, she has been involved in research in the field of Gastric Cancer prevention and is active as the leader of the TOGAS project at the Ljubljana Health Centre, a project under the auspices of the National Institute of Public Health.
