- 2000-2011 Attending Physician at Georges Pompidou European Hospital, Paris.
- Since 2011, Full Professor of Radiology at Université Paris Cité and Head of the Department of Radiology at Cochin Hospital, AP-HP Centre–Université Paris Cité.

Personal statement

Professor Revel currently serves as First Vice-President of the European Society of Radiology (ESR). She is also the former President of the European Society of Thoracic Imaging (ESTI). She has played a leading role in the implementation of lung cancer screening in France and Europe. She was actively involved in the French DEPISCAN study and subsequently served as the principal investigator of the CASCADE study, a pilot lung cancer screening program targeting women at high risk for lung cancer. She also led the women's pilot within the SOLACE project, funded under the EU4Health Programme. She is currently the Principal Investigator of the IMPULSION study, a national lung cancer screening program in France launched in May 2026, which aims to recruit 20,000 high-risk participants. She led the European Society of Radiology's Lung Cancer Screening Certification Programme.
