

Andre-Robert Grivegne

QASDG Member

After completion of my M.D. in Free University of Brussels (1975), I went in an Internal Medicine Department for 3 years before to accomplish my formation in Medical Imaging, specializing in Interventional Radiology and CT/MRI.

In 1984, I became Director of the Cancer Screening and Prevention Clinic in Jules Bordet Institute, Comprehensive Cancer Centre of the Free University of Brussels.

I took involvement in the European Breast Cancer Screening Group and was founder and Chairman of the Brussels Breast Cancer Screening Program which was founded to apply the European Guidelines for Breast Cancer Screening.

I published papers linked to Cancer Screening and Prevention concerning Breast, Colon and Prostate but also on Melanoma.

I am active member of International Breast Cancer Screening Network and of different Scientific Societies (RSNA, ECR, AACR, SFR, BSR...).

I am currently member of the Board and Past President of Brussels Cancer Screening Program and of the French Community of Belgium Cancer Reference Centre.
